# Learning Targets

## Number Sense and Numeration:

## Multiplication and Division

- ✓ We are learning to investigate multiplication and division by representing and explaining, through investigation using concrete materials and drawings, multiplication as the combining of equal groups (i.e., use counters to show that 3 groups of 2 is equal to 2 + 2 + 2 and to 3 x 2)
- ✓ We are learning to represent and explain, through investigation using concrete materials and drawings, division as the sharing of a quantity equally (i.e., "I can share 12 carrot sticks equally among 4 friends by giving each person 3 carrot sticks.")
