

Keeping our Community Clean

Persuasive Writing

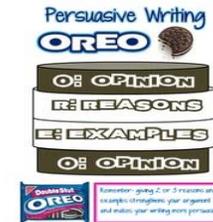

Level 1

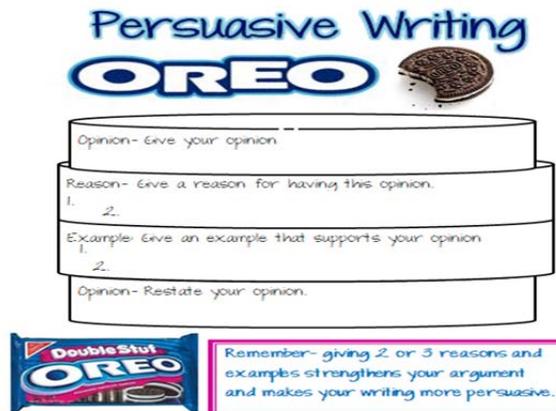

Dear Newspaper, to clean our community everyone must: turn lights off to save electricity, clean all the dust and everyone must do these things to keep our community clean.

Level 2

Dear Newspaper, I think it would be a good idea if we keep the community clean because if we throw garbage and junk on the ground the place is going to smell bad and be dirty. Also, one really important thing is the community is going to get ruined.

Level 3

Thursday, January 17, 2013

Dear Newspaper,

How we need to keep our community clean! Here are my good reasons why.

First, if we don't keep our community clean we will get polluted. If we are polluting our community it will destroy our environment.

Secondly, if we keep our community clean we can grow food and have clean water. Do you really want to drink dirty water? I don't think so.

In conclusion, I think keeping our community clean is a great idea

Sincerely,

Concerned Grade 2 Student!

Level 4

**Believe in
the ability to
change our
community.**

Dear Toronto Star Editor,

Thursday, January 17, 2013

In my opinion, I think everyone should be responsible for keeping our community clean for 3 reasons.

First, people should be cleaning because when someone litters, it'll be bad for the plants and they will die. Almost everyone in our community should pick up the litter in our community. What you can do to help is go through the street and pick up litter and tell your friends to do it too.

Secondly, all the water life animals in the rivers are becoming sick because of the aluminum cans and garbage people throw in it. All the fish have trouble getting food with garbage in the way. It would be helpful if you tell everyone don't litter in the water.

Finally, if we clean, everyone would admire our community and know we respect and take pride in our community! Everyone would know how much better it is in a clean life. Remember to help our community be cleaning! For all reasons I mentioned, everyone should be responsible and clean.

Always Cleaning Yours, Toronto Public Garbage Centre!
