

Counting On

Counting on
 *Put the **BIG** number in your head.
 *Count on!

$4 + 2 = 6$

Turn Around Facts

 $1 + 4 = 5$	 $4 + 1 = 5$
 $1 + 5 = 6$	 $5 + 1 = 6$

Counting Back

Counting Back
 *Put the **BIG** number in your head.
 *Count backwards!

$7 - 4 = 3$

Doubles

Use Doubles to count on!

*Problem: $6 + 7 = ?$

*I know: $6 + 6 = 12$

*So, I just add 1 more to 12, and my answer is... **13**

My Addition & Subtraction Strategies

Doubles Plus 1

Doubles +1 and Doubles -1
 If you know a double, then you know the +1 and the -1 rule:

Doubles Fact
 If you know that...
 $6 + 6 = 12$

Doubles +1
 Then you know...
 $6 + 7 = 13$

Doubles -1
 And that...
 $6 + 5 = 11$

Making Ten

●	●●	●●●
●●●	●●●●	●●●●●
●●●●	●●●●●	●●●●●●

Draw a Picture

Draw a Picture
 *Look at the addition sentence.
 *Draw a picture.

$6 + 4 = 10$

Subtract Zero

Subtract Zero
 *A **number** minus **ZERO** always equals the **other number**!

$6 - 0 = 6$
