

## Measurement

- ✓ We are learning to estimate, measure, and record length, perimeter and area using non-standard units and standard units
- ✓ We are learning to compare, describe and order objects, using attributes measured in non-standard and standard units

## Linear Measurement

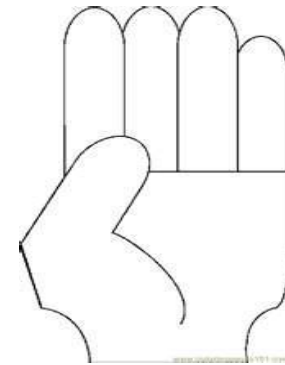

- ✓ **Standard units of measure:**  
using measurement tools to  
measure objects ( **ruler, metre  
stick, measuring tape: cm, mm, m,  
km**)
- ✓ **Non-Standard units of measure:**  
using various items to measure  
objects (**hand span, cubes, foot  
span, straws, string, popsicle  
sticks, blocks, body**)
